SUMMARY

Senior iOS Developer with 10+ years of experience across iOS, React Native, and Frontend. Specialized in SwiftUI, Apple Vision, CoreImage, GraphQL, and mobile architectures (MVVM, VIPER, Clean). Strong contributor to app performance, architecture, analytics integration, and building complex UI/UX.

Shipped products with 1.5M+ MAU and contributed to several app launches from scratch.

Proactive, product-focused developer who constantly proposes improvements and drives technical excellence.

EXPERIENCE

ODDITY — Senior iOS Developer

March 2023 – Present

Project: Beauty mobile app with advanced face recognition & image processing.

Technologies:

SwiftUI, Apple Vision, CoreImage, AVFoundation, CoreVideo, Apollo GraphQL, Firestore, Braze, Amplitude

Architecture: MVVM, Clean Architecture

Key Achievements:

- Implemented facial detection & image segmentation features using Apple Vision.
 - Designed and built high-performance image processing pipelines with CoreImage/CoreVideo.
 - Integrated Amplitude, Braze and optimized event tracking for analytics teams.
 - Introduced architectural improvements that made the app smoother and easier to scale.
 - Contributed to multiple successful releases with focus on stability and user experience.
 - Collaborated with PM/BE/QA to refine requirements, propose solutions, and improve product quality.
-

Opinov8 — Senior Mobile Developer

March 2022 – March 2023

Tech: NodeJS, Express, React JS, React Native, RTK Query, Redux

- Developed cross-platform features across web and mobile.
 - Improved performance and stability of large-scale React Native applications.
 - Built reusable modules and improved state management with RTK Query.
-

Noisy Miner — iOS Developer

August 2021 – March 2022

Tech: Swift, UIKit, Alamofire, Kingfisher, Moya, Crashlytics, Firebase, Remote Config

Architecture: VIPER/VIPER+

Achievements:

- Delivered new features from scratch for a 1.5M+ MAU mobile product (US & UK markets).
 - Optimized Firebase Analytics, Remote Config, and Realtime Database usage.
 - Helped stabilize legacy codebase and improve performance.
-

Opinov8 — iOS Developer

August 2020 – August 2021

Tech: Swift, Objective-C, Alamofire, Moya, Firebase, REST API

Architecture: MVC

- Migrated legacy Objective-C screens to Swift (UIKit).
 - Set up build schemes, CI/CD (Jenkins) pipelines.
 - Integrated payment services and multiple third-party APIs.
 - Developed features for a FinTech salary-advance application.
-

Opinov8 — React Native Developer

June 2018 – August 2020

Built and launched 3 products from scratch, plus contributed to an additional project.

Tech: React JS, React Native, Redux, Saga, GraphQL, AWS Lambda, DynamoDB, S3, Serverless, Cognito

Key Products:

- Learning platform with offline mode, chats, and video/text course content.
 - Hearing test application with backend-driven UI configuration.
 - Logistics app with background geolocation, offline mode, push notifications.
 - Marketplace platform integrating AWS Lambda, Elasticsearch, DynamoDB.
-

Evoplay — React JS Developer

February 2018 – June 2018

Project: Online game platform

Tech: React, Redux, Saga, Recompose, Typescript, GraphQL

- Created adaptive layouts, supported gaming platform, wrote E2E tests.
-

Phase One: Karma/Unicheck — Frontend Developer

Nov 2017 – Jan 2018

Tech: React, TypeScript, Twig

- Updated platform for accessibility needs, implemented mobile responsive UI.
-

Netvertise Ltd — Frontend Developer

March 2016 – October 2017

Projects: Financial platforms, e-commerce, local services

Tech: React, Redux, ES6

- Migrated WordPress projects to React, connected various financial APIs.
 - Built internal NPM package: pre-lander builder.
-

Anotheria.net — Frontend Developer

April 2014 – August 2015

Project: Java-performance.guru

Tech: HTML, CSS, JS, jQuery

- UI development, performance optimization, UX redesign.
-

CyberBionic Systematics — Frontend Developer & Coach

October 2014 – August 2015

Tech: HTML/CSS/JS/jQuery/Bootstrap/AngularJS

- Taught HTML/CSS/JS courses.
 - Built and maintained educational platforms.
-

EDUCATION

- **National Technical University of Ukraine — KPI** - *Software Engineering*
 - **IT Training Center CyberBionic Systematics**
 - **Microsoft Specialist (F342-7509)**
 - **Microsoft Certified Professional (F342-7504)**
-

SKILLS

iOS/Swift

Swift • SwiftUI • UIKit • Combine • Concurrency • CoreImage • AVFoundation •
Apple Vision • Apollo GraphQL • Firestore • Firebase • Moya • Alamofire

Architecture

MVVM • Clean Architecture • VIPER • MVC

Mobile/Frontend

React Native • React • Redux • GraphQL • TypeScript • AWS Lambda

Tools

Amplitude • Braze • Crashlytics • Jenkins • Git • S3 • Elasticsearch

LANGUAGES

- English — Upper Intermediate
 - Hebrew — Intermediate
 - Russian — Native
 - Ukrainian — Native
-

HOBBIES

Crossfit, swimming, composing electronic music.
